Experience

UI/UX Designer

2025 – Present

Ashara Technologies company

I collaborated with a technology firm specializing in UI/UX design for mobile and web applications. My role involved designing and prototyping user interfaces, conducting user research to inform design decisions, and creating detailed wireframes and interactive prototypes using Figma. My contributions significantly enhanced the user experience and aligned with the company's vision for user-centered design.

UI/UX Designer | Figma Designer

2020 – 2024

Shega Media company

I worked with a media company as a Senior Product Designer, contributing to user-centric design initiatives. My responsibilities included creating user flows, wireframes, and interactive prototypes, as well as collaborating with cross-functional teams to deliver innovative design solutions. Utilizing tools like Figma, I played a key role in enhancing the user experience and aligning design outputs with the company's objectives.

UI/UX Designer | Figma Designer

2018 – 2020

Aquila ICT Solution company

I collaborated with an ICT company as a Graphic Designer, contributing to logo design, brand visual identity development, and UI design projects. Leveraging tools such as Figma, I provided creative design solutions that aligned with the company's branding strategy and project objectives, enhancing both visual appeal and user experience.
